

## **2. RESPONSE/REMARKS**

### **2.1 STATUS OF THE CLAIMS**

*Claims 1-5 and 10-23 were pending in the application following entry of the Request for Continued Examination filed on June 11, 2009.*

*Claims 13-14 and 21-22 have been amended herein.*

*Claims 1-5 and 10-23 remain pending in the application.*

### **2.2 EXAMINER INTERVIEW**

Applicants have submitted the accompanying amendment in response to the telephonic interview conducted with Examiner Bradley and the undersigned representative on July 1, 2009, in which the Office requested Applicants to provide larger clearer chemical structures in the claims than those originally included throughout the amendment submitted previously on June 11, 2009.

To that end, Applicants have enlarged the graphical content of the claims to provide clearer representations of the chemical formulae in claims 13, 14, 21, and 22. Applicants certify no new matter is included by way of the present amendment.

### **2.3 CONCLUSION**

Applicants believe that all claims are acceptable under the Statutes, and that all of the Office's concerns have been fully addressed. Applicants now earnestly solicit the withdrawal of all pending rejections, and the timely issuance of a Notice of Allowance.

Applicants reserve their right to re-file claims to one or more aspects of the invention as originally claimed in one or more continuing application(s) retaining the priority claim of the present application.

Should Examiner Bradley have any questions upon entry of this response and consideration of the accompanying remarks, a telephone call to the Applicants' undersigned representative would be sincerely appreciated.

Respectfully submitted,

July 24, 2009

Date
